

POLITICAL SCIENCE

Oxford University Press is one of the world's leading publishers in political science. We publish outstanding original work across many of the key areas of the discipline, from Comparative Politics to Political Theory, International Relations to European Union Studies.

Our selection for *Oxford Scholarship Online* focuses on the core areas of the list. The topics covered are fundamental to the discipline, and thus of interest to anyone working in political science – researchers, lecturers, and students. We have concentrated on recent books – most of them from the last five years – which have become central to the study of political science today.
